Date Quotation Needed: \_\_\_\_\_

Quote will be e-mailed unless you specify some other means of delivery.

### Materials

Please circle the panel thickness you desire. If you are uncertain as to the necessary thickness, circle "specify" and our estimating department will calculate minimum thickness.

**Floor Panels:** 6 ½, 8 ¼, 10 ¼, 12 ¼, N/A, Specify

**Wall Panels:** 4 ½, 6 ½, 8 ¼, N/A, Specify

Please indicate which areas to include (walkout basement, garage, etc.) \_\_\_\_\_

**Roof Panels:** 6 ½, 8 ¼, 10 ¼, 12 ¼, N/A, Specify

Please describe the structural system being used to support the roof. (Structural ridge, rafters, timber trusses, timber frame, etc.) \_\_\_\_\_

- PanelWrights offers professional installation service for residential projects located within 65 miles of our office. If your project is within this range, would you like us to provide an installed package quote? Yes or No. If you will not require PanelWrights installation, please provide the contact information of the planned installer.
- Installers Name: \_\_\_\_\_
- Installers contact number \_\_\_\_\_

The cost of heavy equipment (crane and/or forklift) will be included unless you would prefer to provide needed equipment.

Our network of trained installers is available for a commercial SIP installation world-wide.

- If any internal support structure and/or floor decks are needed during the panel installation, do you want PanelWrights to quote that installation: Yes or No \_\_\_\_\_
- Are you interested in PanelWrights HVAC energy analysis to assist you in properly sizing a system for your energy efficient structure? Yes or No
- PanelWrights has no mileage limit for our Tech-Assist service. Would you like a PanelWrights Tech-Assist to work with and train your installation crew? Yes or No

### Site Information

To accurately quote an installation, our estimator needs to know certain specifics about your site. If you answer No to any of these questions please explain on the lines provided.

1. Can a full size tractor/trailer access the site to within 50' of the foundation? Yes, No, or Not Sure
2. Is there sufficient room to turn around that same tractor trailer on site? Yes, No, or Not Sure
3. \_\_\_\_\_  
The PanelWrights installers use both all terrain forklifts and cranes to install panels. Is there sufficient room and flat enough to drive all the way around the foundation? Yes or No or Not Sure
4. \_\_\_\_\_  
Is the jobsite free from any obstacles that may prevent us from using heavy equipment? (overhead electric wires, trees, other structures) Yes or No or Not Sure \_\_\_\_\_
5. \_\_\_\_\_  
95% of Installations are performed after foundations have been backfilled; will your foundation be backfilled prior to the arrival of panels? Yes or No \_\_\_\_\_
6. Once the foundation has been backfilled and your lot is in a "rough-grade" condition, what is the height in feet that the four corners of your 1<sup>st</sup> floor deck extends above rough grade:

Front Left \_\_\_\_\_

Back Left \_\_\_\_\_

Front Right \_\_\_\_\_

Back Right \_\_\_\_\_

7. How will you be sending your building plans to us? Include project name and address on plans sent separately.

PDF via e-mail \_\_\_\_\_

Hard Copy in mail \_\_\_\_\_
